Meeting points

§ 5. Objectives
Appendix: A1_objectives
Rapporteur: John Lindskog

651 members, 100 visitors for pub nights, approximately 130 visitors for club nights and the membership discounts are still 7.

Collaborations – An idea to participate in a board meeting with the section boards during the spring semester to follow up was brought up. It is important that we as a board give recognition to Novitas and Hållbar Student since they are collaborating with an event.
Quality criteria – Course reports, everyday student errands. Go over house and see how they represent in the ACLR. Board should discuss the criteria for “Godkänt from UKÄ” and see if we agree and otherwise rewrite the goal regarding that.

Activities and support the association groups on campus – Coola kids with 7-k was an event that we held together with an association. The board encourages the associations to do things together; they also help with working at The Kärner. Åsa has contacted 117 sport association groups for health week (2 have said yes already). Åsa and Roos are still having the VIP meetings with the presidents of the association groups where they discuss and answer questions and help out with any concerns the association groups may have. The board provides counselling on planning an event, like how to do a seating and providing the association groups with lists of how to create event and budget plans. Sebastian will contact Borås Basket about the event 6th of March. We will ask Student Sport to promote it at the Student Sport event on Monday 2nd of March.

In the operational plan (verksamhetsplan) it says that we will measure the happiness/satisfaction among the members. Have we thought about it? No, not yet. What do we have to do? The board will bring it up as a point in the next meeting.

§ 6. Open house – light version

A long discussion was held where pros and cons were regarded. If we start paying now, we open a door for future payments and what happens if the election committee becomes much bigger? Why pay the committee but not the sections?

The board decided to not make a decision now and discuss it again after spring-FUM.
